11,378.92 BILLION VND	20,574 BILLION VND	29.72	3,325

Market position

Viettel Post is one of the leading logistics and delivery companies in Vietnam, currently **holding around 22.3% market share by revenue and surpassing major competitors such as VNPost and GHN**. Backed by Viettel Group, VTP benefits from a strong nationwide ecosystem, extensive infrastructure, and nationwide delivery coverage reaching district and commune levels across the country. The company is also transforming into a technology-driven logistics enterprise, focusing more heavily on core delivery and logistics services.

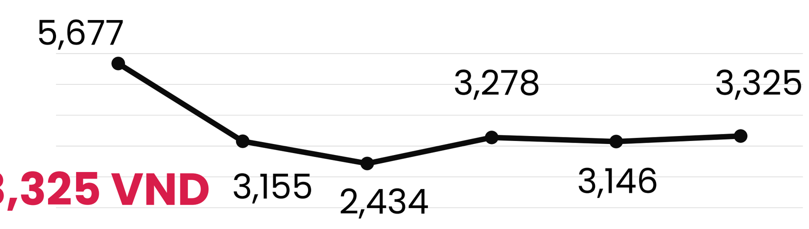
VTP's competitive advantages include its nationwide post office network, strong transportation capabilities, and advanced technology integration such as AI and intelligent robotics sorting systems to optimize delivery efficiency and reduce operational errors. In addition, the company has strong capabilities in handling oversized parcels above 30kg, helping differentiate its logistics services and strengthen its long-term position in Vietnam's rapidly growing e-commerce logistics market.

Financial performance

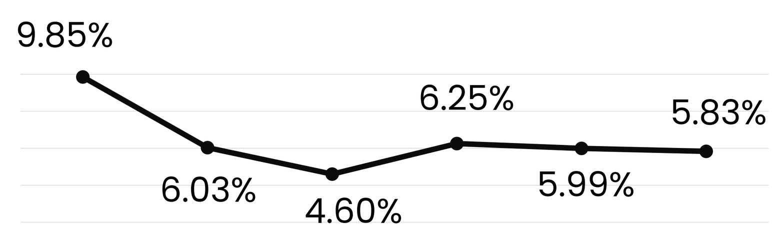
During the 2020–2025 period, **Viettel Post recorded fluctuating but generally stable financial performance**. Revenue growth surged sharply by 120.62% in 2020 and continued growing in 2021–2022 before declining slightly during 2023–2025, **reflecting the company's business restructuring and changing market conditions in the logistics sector.**

Earnings After Tax remained relatively stable, increasing from VND 383 billion in 2020 to over VND 521 billion in 2025, indicating resilient profitability despite margin pressure and rising operating costs. **ROEA stayed at relatively high levels above 18% throughout the period, reflecting efficient use of shareholders' equity, while ROAA remained stable around 5%–10%, showing consistent asset utilization efficiency**. EPS declined from its peak in 2020 but stabilized above VND 3,000/share during 2023–2025, reflecting relatively stable shareholder returns over the long term.

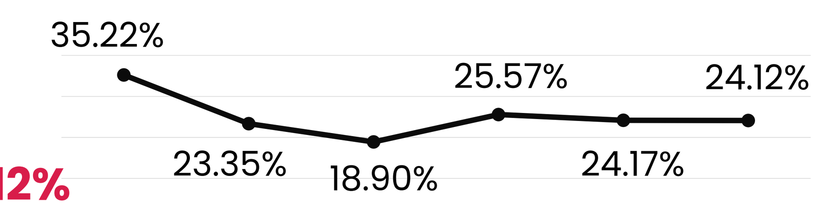
EPS
5,677 VND - 3,325 VND

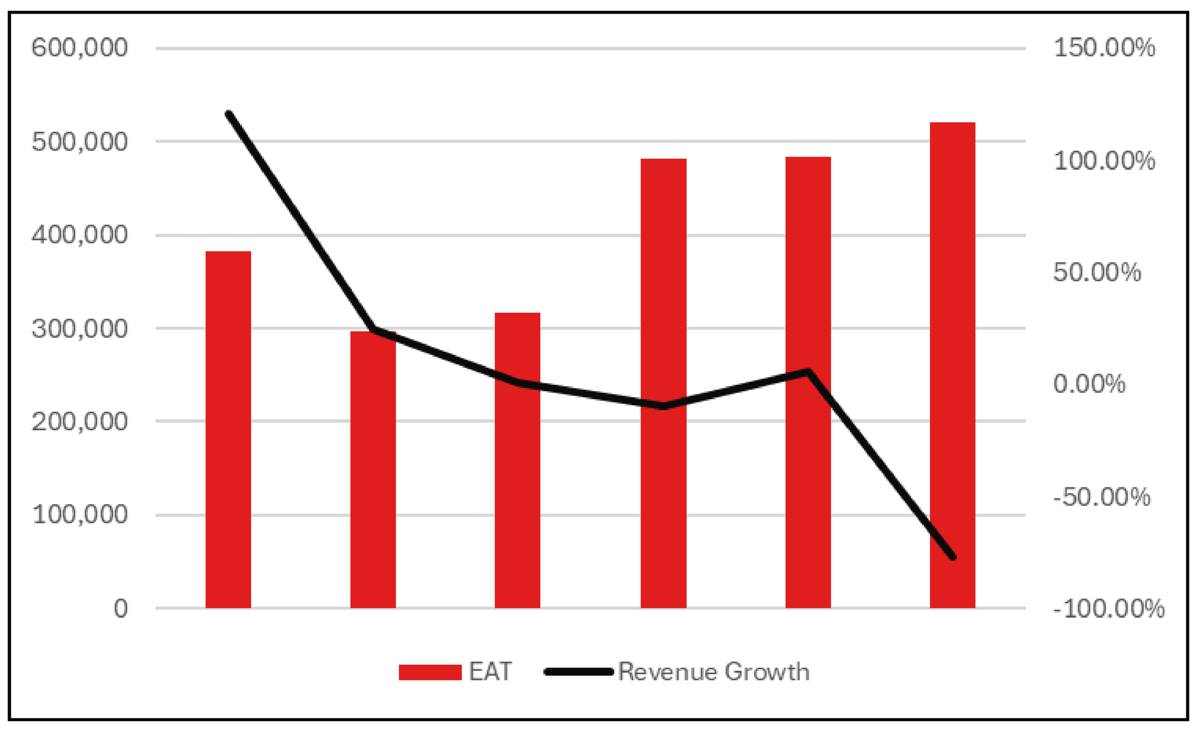


ROAA
9.85% - 5.83%



ROEA
35.22% - 24.12%





TIME HORIZON

SHORT TO MEDIUM TO LONG -TERM INVESTMENT HORIZON

In the medium term, the company is expected to benefit from the continued expansion of Vietnam's e-commerce industry, rising logistics demand, and ongoing investments in digital transformation and logistics infrastructure.

In the long term, Viettel Post has strong growth potential thanks to its nationwide network, technology-driven operating model, and strategic support from the Viettel Group ecosystem. These factors are expected to strengthen the company's competitive position and support sustainable business expansion over time.

3 TO 5 YEARS

RISK TOLERANCE

MEDIUM RISK TOLERANCE

Due to its strong position in Vietnam's logistics and delivery industry, nationwide operational network, and strategic support from Viettel Group. The company benefits from the rapid growth of e-commerce and rising demand for logistics services, supporting long-term revenue expansion and market share growth.

However, VTP still faces risks related to intense industry competition, rising transportation and operating costs, fuel price fluctuations, and continuous investment requirements in technology and logistics infrastructure, which may affect short-term profitability.

Medium and long-term prospectus

Growth of E-commerce and Logistics Demand

Viettel Post is expected to benefit from the strong expansion of Vietnam's e-commerce market and increasing demand for integrated logistics and delivery services.

Technology-driven Logistics Expansion

The company continues investing in logistics infrastructure, warehousing systems, automation, and digital transformation to improve operational efficiency and optimize last-mile delivery services.

Diversification of Logistics Services

VTP is gradually expanding into supply chain solutions, cross-border logistics, and value-added services, supporting long-term revenue diversification and sustainable growth.
